

ACCIDENTAL INJURY INSURANCE

Accidental Injury insurance could help to protect you from financial hardship in a time of need. This coverage provides a lump-sum payment if you are seriously injured as a result of a covered accident.

It can be used to help pay for additional expenses that may not be covered by medical insurance, such as rehabilitation, transportation and child care – all of which can quickly add up.

In 2010, one in eight Americans had medical treatment for accidents.

National Safety Council, *Injury Facts*, 2012 Edition.

Note: Not all accidents are covered under this policy. Exclusions and limitations may apply.

Financial protection for the unexpected spills*

Jack and Lori have an active family. They love to play sports and go bike riding with their two kids, Tim and Emily. Of course, with four people always on the go, there have been more than a few spills – and more than a few trips to an urgent care clinic or emergency room. Like the time Jack fell off his bike and broke his leg, or when Emily broke her wrist playing softball. The payment Jack and Lori received from their accidental injury policy helped to pay for those unexpected medical expenses – and a new bike for Jack!
