

# Chiropractic Care Benefit<sup>1, 2</sup>

A strong, healthy back supports you in everything you do, and it's one of the keys to an active lifestyle.

## Your chiropractic care benefit covers

- Evaluation and management
- Lab services and X-rays required for such services
- Manual manipulations

To be covered by your Kaiser Permanente chiropractic care benefit, you must get care at one of Kaiser Permanente's Centers for Complementary Medicine.

No referral is required, so you may self-refer for appointments.

To find participating chiropractors or schedule an appointment:

- Call the Centers for Complementary Medicine at **1-844-800-0788**.
- Visit **kp.org/locations** and search by keyword.

Some services may not be covered under this benefit:

- Special procedures such as MRI and CT scans
- Durable medical equipment (DME) and/or supplies for use in the home
- Physical or massage therapy that is not a part of the manual and manipulative therapy

1. Colorado state law requires that an Access Plan be available that describes Kaiser Foundation Health Plan of Colorado's network provider services. To obtain a copy, please call Member Services or visit **kp.org**.

2. The information provided here is a summary only. For benefit information, see your *Evidence of Coverage*, which can be found online at **kp.org/eoc**. (You'll need to log in first or register, if you haven't already.)
